

SAFETY BULLETIN

Safety Bulletin No.	2019 / 03	Date Issued	17 th January 2019
Subject	Changed Conditions – Pedestrian Crossings removed		
Area of Concern	Vehicle speeds in this area		
Issued By	<i>Steve Caldwell</i> - WHS		

This bulletin has been produced to advise road users of the changed conditions on Henry Wrigley Drive inbound and outbound pedestrian crossings.

These crossings are now **vehicle** priority and **NOT** *pedestrian* priority.

The reason for this change is due to the low number of pedestrians using these crossings and to eliminate the uncertainty for the vehicle users.

What is critical during this change is for vehicles to adhere to the **40km/hr maximum** speed limit on these roads and to be mindful that pedestrians will still cross in this area.

This does not mean vehicles need to stop when pedestrians are waiting to cross the road as this will cause more uncertainty. The key message is:

Keep below 40km/hr speed limit & be wary of pedestrians

40km/hr max speed limit

Henry Wrigley outbound

Henry Wrigley inbound

THINK SAFELY, ACT SAFELY
