

SAFETY BULLETIN

Safety Bulletin No.	2019 07	Date Issued	26/3/2019
Subject	Dnata carpark traffic management		
Area of Concern	Safe traffic flows		
Issued By	<i>Steve Caldwell</i> (WHS – 0402 782 375)		

To ensure the safety of the Dnata carpark (located in Lancaster Road at DIA) is maintained and to enable easier and safe access for rubbish trucks the following changes have been made to the line markings in the area (photo refers).

The traffic flow in the carpark will go clockwise and the extra no parking spaces and an arrow have been added to enable easier access for truck movements.

In addition, a no parking space has been added to widen the existing parks and to allow unhindered pedestrian access to the front steps to the Dnata building.

THINK SAFELY, ACT SAFELY
