

SAFETY BULLETIN

Safety Bulletin No.	2019 08	Date Issued	26/3/2019
Subject	DIA Terminal Roof Access Induction		
Area of Concern	Persons are aware of DIA Terminal Roof Access Safety requirements		
Issued By	<i>Steve Caldwell</i> (WHS – 0402 782 375)		

This safety bulletin has been issued to advise all staff, contractors and tenants that there is now an on-line induction that must be completed by all people accessing the DIA Terminal Roof. This induction must also be completed by people that may be overseeing or supervising others, that need to access the roof.

This induction has been prepared to ensure all persons accessing the roof are aware of the restrictions for access on different areas of the roof and of the ever-present hazards that exist on the roof and the precautions that need to be taken.

Access to the terminal roof is restricted using an electronic key and DIA Security will not give access to the key without having completed the induction.

Terminal Roof Access Procedures are available on the DIA website:

<https://www.darwinairport.com.au/node/679/attachment>

If you have any queries about this bulletin please contact Steve Caldwell: WHS - 0402 782 375. If you wish to complete the induction you can contact DIA Security at the Terminal Control Centre.
