

Safety Bulletin No.	2019 17	Date Issued	10 th December 2019
Subject	Using Airport Carparks		
Area of Concern	Vehicles overhanging pedestrian paths & damaging fences		
Issued By	<i>Steve Caldwell</i> (WHS – 0402 782 375)		

Introduction

This bulletin has been issued to highlight the importance of ensuring vehicle overhangs do not encroach over pathways and damage fences (photos refer).

Damaged fencing

Footpaths blocked by overhanging vehicles

Risk

The risk of overhanging vehicles is that it can damage fences and it encroaches on the safe pedestrian access around the carpark.

Action

All carpark users are requested to ensure that their vehicle does not overhang the pedestrian footpaths as this can damage fencing and restricts the safe access for pedestrians in the carparks.

Persons or companies that damage fencing will be on-charged for the repair costs.

Thank you for your cooperation in this matter and remember if we all think of others when we park our vehicles it will ensure we all have a safe facility and reduce damage to property.

THINK SAFELY, ACT SAFELY
