

Safety Bulletin No.	2019 18	Date Issued	16 th December 2019
Subject	Hard Waste Bin Trial – DIA East End Waste Station		
Area of Concern	The management of hard waste		
Issued By	<i>Steve Caldwell</i> (WHS – 0402 782 375)		

Introduction

Further to Safety Bulletin 2019/13 issued on 13th October 2019 we have decided to trial a 4 cubic metre hard waste bin in the DIA East End Waste Station. This bin is supplied for DIA terminal tenants and concessionaires and is to be used strictly for hard waste only.

Action

- To be used by tenants and concessionaires only for the disposal of hard waste as per the sign above.
- The Hard Waste Bin will be monitored by DIA and any personnel found placing restricted items in the bin will be on-charged for the cost of decontaminating the bin.
- Please instruct all users on restriction of use.

This is a free service provided by DIA and failure to use the bin as intended will result in the service being removed.

This bin is being provided as a trial to keep our waste station tidy and to reduce the introduction of vermin and bird attractants caused by waste being stored on the floor of the waste station.

We encourage all tenants and concessionaires to avail themselves of this service to assist us to maintain a safe workplace.
